

Adobe Creative Suite 4 Production Premium Workflow

(exchange projects, sequences & XML data
between Avid & Final Cut Pro.)

6pm Tuesday 17th November

**Canolfan Mileniwm Cymru, Caerdydd
Wales Millennium Centre, Cardiff**

18:05 Introduction

18:10 **Space & Matrix Store**

Space – Ethernet or Fibre Connected Storage?

Space offers high speed gigabit ethernet central storage offering multiple streams of DV, HDV, SD, ProRes HQ and more.

Matrix Store – Protecting Your Digital Assets – instant availability and archive protection in a mixed media environment – pre-production and nearline storage for tapeless workflows.

18:30 **Adobe Presentation**

Adobe Story.

Interview Intensive Projects - taking advantage of Adobe Premiere Pro to accelerate the post production process; speech search: instantly searchable text based metadata attached to clips to locate dialogue.

Effects heavy projects – dynamic links with After Effects, zero rendering until final output.

XML Exchange – conduit to FCP & Avid projects. Fast Native file based workflows without rewrapping or transcoding – Red, P2, XDCAM, AVCHD.

19:15 Break

19:30 **CatDV – Asset Management** – ‘production media manager’.

20:00 **Output**

Encore for DVD/Blu-Ray.

Rimage DiscFlow 2.0 - P2 Archiving

Free up your P2 cards by backing up or archiving to the Rimage Blu-ray/ DVD/CD burner.
